Twenty school polling places in the Quad-Cities will be open from noon to 7 p.m. In all, eight school districts will be choosing seven for regular three-year terms and one for a one-year unexpired term.

Of the two Granite City school board posts to be filled, at least one of the winners must be from the rural area of the district.

Two Incumbents Running
Incumbent board members seeking reelection are Board Secretary Howard W. Kieselberg, who operates a 120-acre farm at Ponton Beach, and Glenn C. Abernethy, 2847 Grand avenue, assistant manager of the John Hancock Insurance Co. Kieselberg represents the rural area and Abernethy the city section.

Stidham, 153 Trockle lane, Mitchell, an employee of the Granite City Steel Co. cold strip department; Hubert L. Hall, Rural Route One, former Nemo, and a school custodian who is on disability retirement; and Sam P. Drenowatz, Rural Route One, associated with his father in operation of the Twin Oaks restaurant.

With two city and four rural candidates in the race, the outcome will be a city or rural winner, or two rural winners.

Paper To Compile Returns Saturday

Results of the Quad-Cities school board and township school trustee elections will be compiled by the Press-Record Saturday evening.

Polling place officials are asked to report their returns to the newspaper office, TR, 6-2000. Trends and totals will be reported to the public as they become known.

Two Incumbents Point To Major Gains In Schools

Several of the major accomplishments of the Granite City school system during the past three years, in which they shared as members of the board of education, were cited today by Howard W. Kieselberg and Glenn C. Abernethy, incumbent directors who are seeking reelection next Saturday.

"While utopia has not been reached—and never will be—we believe great strides have been made for the educational benefit of students and for the financial benefit of taxpayers. At the same time, there has been real consideration for the increasing tax burdens of parents and citizens," the candidates said.

In support of the educational improvements initiated by the school board, they quoted from the 1960 official inspection report of the Illinois Office of the Superintendent of Public Instruction:

"It is clear that the Granite City schools have been progressing with a real speed. The visitors (state inspectors) feel that the school has a dynamic professional leadership, an understanding and effective Board of Education, and an able and dedicated teacher."

"Teacher preparation in the Granite City Unit is outstanding. No doubt this is primarily due to good working conditions within the unit, and a good salary schedule based upon training and experience."

Employee, Taxpayer Benefits
Between 1959-60 and 1960-61 all school employees have received salary increases, with those in the city section receiving slightly under \$60 a month, based on a 9 1/2 percent increase.

The new teaching schedule, effective this year, ranges from 1908 state salary schedule, with an average monthly salary, exclusive of extra pay for extra-curricular activities, of \$667 for the 452 teachers. Sick leave also is paid 10 days per year with no provision, Abernethy and Kieselberg said. This can be accumulated up to 70 days and 25% of any unused leave is paid in cash to the teacher who quits or retires.

Despite the greatly improved conditions, higher salaries and other costs, the two directors noted that the Granite City school system's per capita cost of operations is below the national average, and the school's property owners and taxpayers.

"Although these higher costs have increased our figure from \$339.51 per pupil three years ago to \$330.03," Kieselberg and Abernethy pointed out, "this is still less than the \$425 national average. Substantial refinements in efficiency, including revised methods of purchasing, maintenance, etc., have made this possible."

Abernethy and Kieselberg were first elected to the school board three years ago. Opposing them are Hubert L. Hall, Sam P. Drenowatz, George J. Stidham and Ralph D. Fricker, the latter two endorsed by the Teachers Federation.

The polls are open from noon to 7 p.m.

Stolen Auto Found

A 1956 auto belonging to Frank Pulley, 2153 Delmar avenue, was found in a 2000 block of Adams street, a short time after Pulley had reported about nine years ago that it had been stolen from in front of his home.

Worthen, Baumeier Renamed GC Park Commissioners

Incumbent park commissioners W. Milton Worthen and Clarence Baumeier were re-elected by 2-to-1 margins over Clarence Paul Alping. Both were renominated for six-year terms from the Granite City board of park commissioners.

The turnout in Tuesday's vote, the first time the district had more than one voting precinct, broke all previous records with 220.

Fluoride Proposal Wins By 1448 Votes

GC Public Approves
Action By Council On
Dental Health Program

Fluoridation of the local water supply received the approval of Granite City voters Tuesday, when an advisory fluoridation election carried by a margin of 1448 votes.

Taking note of the 7085-5537 result, Second Ward Alderman Sam Whitmer said yesterday he plans to introduce a fluoridation resolution before the city council. It was Whitmer who proposed the referendum, called by the council Feb. 6 to determine the public's opinion on the issue.

The resolution would signify council approval of adoption of fluoride to water furnished in and to the city of Granite City by the East St. Louis and Interurban Water Co.

Of approximately 20 communities served by the water company, approval was furnished by the Granite City council at 8:30 in Belleville and Swansea.

Approved In Madison, Venice
This water company has expressed its willingness to proceed as soon as the action is unanimous. Such cities as Madison and Venice approved fluoridation several years ago by council action.

Fluoridation of community water supply consists of adjusting the fluoride content to the level of one part to a billion parts of water. The purpose is to prevent future tooth decay and official public health records show that fluoridation consistently reduces incidence of decay 60% in a safe and inexpensive manner.

Backed by the Tri-City Dental Society and Tri-City Medical Society, the proposal won in 21 of the 25 city-facility precincts, largest favorable total was the city of Granite City.

4 Seek Township School Trustee Posts Saturday

Quad-Cityans will elect two township school trustees in balloting Saturday between noon and 7 p.m. Both terms are to be for six years.

Worthen said, 1601 Elizabeth street, Madison, an employee of the Madison city street department, is unopposed in a Venice township school trustee position, but three are running in the city section.

The four vote for the former Nemo township area. The Nameoki area candidates are Arthur Roman, Rural Route One, and John C. Lakin, 3032 Elmwood avenue, a foreman at the A. O. Smith Corp.

Incumbents Retiring
Neither incumbent is running for reelection. Those with expiring terms are President George Hughes of the Nameoki township board and Mathew W. Sargent, Venice township school trustee.

The three Nameoki township school trustees against the retiring incumbent are: John C. Lakin, owner of the Granite City school district, while the three Venice trustees are: Walter H. Francis, 2704 State street, owner of the Francis Real Estate and Insurance Agency and an appraiser; and John C. Lakin, 3032 Elmwood avenue, a foreman at the A. O. Smith Corp.

Parsons Honored By Jaycees For Service To Community

(Picture on Page 5)

Earl Parsons became the first Granite Cityan to receive the "Distinguished Service" award, a diamond pin, at the Jaycees "Bosses' Night" banquet last night at the Roca Room restaurant. More than 100 members, their employees, and guests attended the first annual affair.

Head advisor of the Black and Gold Roca chapters, Parsons is a former state Jaycee president. Under his leadership the membership of the local club has risen from 16 in September to the present total of 63.

During the dinner, John McBride, vice-president and general manager of Union Star & Refining Co., spoke on "Delegation of Authority."

Aimed at employers and members of the Jaycees, the talk hit the one-man type executive who fails to allow subordinates to make decisions, resulting in lost efforts, and "tying the hands of the executive causing him to devote too much time to three unimportant details."

McBride's philosophy of management is to "let subordinates act on their own. Give them authority if responsibility is commensurate with their training."

The speaker explained that "management must recognize this approach and reconcile it."

A former school administrator, McBride cited a case in point in his own plant where proper delegation of authority had cut the cost of grinding one bushel of corn from \$1.74 to 85 cents, resulting in greater efficiency.

Outlines Steps
Outlining the steps to be taken to bring the method into focus, McBride said executives have to be trained to delegate, must impose rigid discipline, be ready to accept new methods.

The plaque, which is to honor all local veterans of all wars, is to be attached to the fountain and will be either bronze or marble.

The fountain is to be located in Memorial Park, which is the location of the Granite City National Bank and Trust Co. at North Broadway and Adams street. The park district is to landscape the area and will install sidewalks inside the park, while the city has agreed to install perimeter sidewalks.

Corrections To Start
Worthen said the contract is to be signed within the next few days and work will be started as quickly as possible. Delivery of special equipment is expected to take about six weeks.

Attending yesterday's meeting at the Trust Bank were Worthen, Karandeff, W. F. Coolidge, Karl Ramf, Carl Graham, Edwin Reide, and Eldon Curtright, members of the committee; Park Board President Barry Lozano and Gabriel and Dulgoff, architects.

**Midwest Dairy
Buys GC Ice
Cream Co. Here**

Sale of the Granite City Ice Cream Co. to the Midwest Dairy Products of Memphis, Tenn., a division of the City Products Corp., Chicago, was announced yesterday by Mrs. A. B. Lehmann, president of the local company. The purchase price was not disclosed.

Midwest Dairy bought the plant, land and business, and according to W. J. Hunt, local division manager, will continue the same type of operation. The plant is located along Old road at Mitchell. Mrs. Lehmann, who lives near the plant, said she had a number of years in the sale and she plans to move to Granite City.

Mrs. Lehmann has been operating the plant since her husband died in January. The firm has been in operation here 41 years, receiving a 40-year plaque in a ceremony conducted last year by the Associated Retail Merchants.

Hunt stressed that no change in operations is contemplated by the new owner and that the firm will continue to handle the same line of ice cream products.

Fire Calls In Venice

Venice firemen answered two fire calls Monday afternoon, going at 3:40 to the rear of an old car barn south of the Broadway railroad crossing and at 4:45 to the 200 block of Garner road, where weeds had caught fire. Old railroad ties near the barn caught fire, and no loss was listed.

Hard-fought races right down to the finish line were features of Tuesday's city-township election in Granite City which brought out an estimated 15,000 voters, the highest turnout since Mayor Davis took office for a fourth four-year term.

The earliest returns, received about 9:30 p.m., set the trend, and while margins fluctuated from 150 to 1000 for Davis, he remained on top throughout the night and early morning. He won over Ernest (Paul) Rich by 416 votes (5238 to 4822), according to the complete but unofficial count.

**Madison Street
Project May Be
Delayed To June**

The Madison avenue street widening project in Madison may be delayed, according to a report by E. W. Riefler, district highway engineer, to learn why the project was not included in a bid listing recently published in a contractor's bulletin, Mayor Stephen Macneil said in the Madison city council Tuesday night.

The bulletin lists projects to be let for contract. Bids also were to be advertised for beginning last week, but the notice was not issued, he said. The work is to be financed partly by state funds, and may be postponed until a May or June bid letting. Macneil said he said the April 21 date was learned from a telephone conversation with Riefler early last month.

In other action, the council passed a resolution designating three local banks as depositories for city funds. They are the First National Bank in Madison, First Granite City National Bank and Granite City Trust and Savings Bank.

Theft of Jewelry Worth \$300 Being Investigated

Theft of about \$6 and \$300 worth of assorted costume jewelry from the bedroom of its upstairs apartment was reported to Madison police at 8:35 a.m. yesterday by Clifford Dunham, 37, of 1021 Grand avenue. The time was placed between 11 p.m. Tuesday and 6 a.m. Wednesday.

Police questioned a number of persons yesterday in an effort to obtain leads on the theft. Six or seven one-dollar bills, a driving license and auto license card were taken from Dunham's wallet, which was recovered from a pair of his trousers. The trousers were found lying on the bedroom floor, between a dresser and bed, and the discarded wallet was discovered by a neighbor on the ground between 1017 and 1019 Grand.

A large mahogany jewelry box, taken by the thief, contained bracelets, wristwatches, necklaces, ring and earrings valued at about \$300. The mahogany jewelry box was left in the apartment and its contents were not disturbed.

Freedom From Damages Freedom, Speaker Says

"Freedom from insecurity fails to produce what it promises because it destroys initiative and enterprise," Wendell Melvay, superintendent of employment at the Granite City Steel Co., said in a talk before the Madison Rotary club yesterday. He projected a film of major points in the National Management Association program, "Selling America."

Discussing "Freedom," first of a three-part series which also includes talks on "Abundance and Inflation," Melvay attributed West Germany's industrial revival to rapid release of economic controls. England and France, much slower to remove world war II restrictions, have failed to show such economic progress, he asserted. Some cushion against want is needed, but it must be a thin cushion to succeed, he added.

The speaker stressed that freedom to try, sell, buy and fail are vital and inseparable. He warned against forces in the world and in this country that try to eliminate freedom by attacking it through different terminology, such as insecurity, expansion, competition and striving.

W. MILTON WORTHEN
GC PARK COMMISSIONER

W. Milton Worthen and Clarence Baumeier, who were re-elected in Tuesday's vote.

Melvay said Communism attempts to persuade people that it also stands for freedom, but not freedom to do various things. Instead it promises "freedom from"—freedom from fear, failure and strife—but such procedures bring on force to achieve national goals, he concluded.

Miss Carol Sabo Named Sweetheart of DeMolays

Miss Carol Sabo, a daughter of Mr. and Mrs. Robert Dorth, of 2332 Hodges avenue and a student at Granite City high school, was chosen DeMolay "Sweetheart" for 1961 at the 21st annual "Sweetheart Dance" Tuesday night at the local Masonic temple.

Miss Mary Christian, the retiring sweetheart, crowned Miss Sabo in a ceremony witnessed by 150 members of Job's Daughters and the DeMolay order and their guests.

Maid of honor to the new sweetheart were Miss Ann Rich, a student at Granite City high school and Miss Lynn Shepard, Coolidge junior high school student. The 1961 sweetheart and her attendants are members of Bethel Chapter 48, Order of Job's Daughters.

An orchestra provided music for dancing following the coronation, and refreshments were served by the Granite City DeMolay Mothers Circle. Master of ceremonies for the coronation was DeMolay Master Counselor Robert Maxwell.

Tax Refunds Must Be Listed On Income Forms

Refunds or credits of state and local taxes, which were claimed as a deduction on a prior year's Federal income tax return, generally constitute taxable income and must be reported on Federal income tax returns in the year received.

Jay G. Philpott, district director of Internal Revenue issued this reminder today for Springfield district taxpayers who have questioned the treatment credits received during the year most of Illinois refunds or 1960.

He noted, however, that where the taxpayer claimed the standard deduction in the prior year, he is not considered to have received a Federal tax benefit from such payment in the prior year and need not report a subsequent refund or credit of state or local taxes paid.

Taxpayers who have taxable refunds or credits to report should list them in Schedule H of Form 1040, "U. S. Individual

Income Tax Return." Forms 1040A and 1040W cannot be used for this purpose.

Philpott pointed out that the same rule generally applies in the case of subsequent refunds or reimbursements, by insurance or otherwise, of other deductible items such as medical expenses, casualty losses, interest, etc.

The unique 10-member group is directed by Robert D. Todoroff, who will accompany the music group along with Principal Ralph Frohardt and parents of the students. The ensemble has been noted for authentic presentation of Latin-American rhythms.

Invitation to the conference is regarded as an honor for school groups, and the demonstration is expected to show how similar ensembles could be organized at other junior high schools.

CJHS Rhythm Ensemble Plays Saturday At MENC

The Coolidge junior high school Latin-American Rhythm Ensemble put the finishing touches to its repertoire of chachachas, boleros, mambo and some other less familiar dance rhythms in a final practice session Tuesday evening, then began packing its unusual instruments in preparation for an appearance Saturday before the Music Educators National Conference in Columbus, O.

The ten members of the group, plus director Robert D. Todoroff, CJHS Principal Ralph Frohardt and chaperones, Mrs. Charles McCollum and Mrs. Roger Hoover, leave for Columbus at 10:30 tomorrow morning. All but Todoroff will be traveling by train. The director of Coolidge bands and originator of the ensemble will drive to Columbus in his auto, transporting the more unusual instruments used by the group. "Some of them are quite rare and would be difficult to replace," Todoroff said.

The ensemble members plan to attend other sessions of the conference while in Columbus, and will also try to work in a sight-seeing trip before they board a train to return here Sunday evening.

Their performance for delegates interested in Latin-American instrumental instruction on the junior high level, is scheduled for 3:30 p.m. Saturday in the Yellow Room of the Deshler-Hill hotel, and the group owns the distinction of being the only one of its kind in existence, Todoroff believes.

Members of the ensemble are Barry Freeman, Kay Rheinhardt, Debbie Spengler, Donna

Madison To Check Rate, Assessment Changes

The local department of the Madison city government is investigating an apparent old assessment error which put the McKinley Bridge, owned by the city of Venice, on Madison tax rolls in 1959. Mayor Stephen Macraas said at Tuesday night's city council meeting.

The situation was discovered after the new assessed valuation and tax rates were released on March 23, showing a \$594,971 decrease in assessment of the city.

Upon further check, it was discovered the bridge assessment had been added to Madison's tax books, and then later removed. Austin Lewis, corporation counsel, and Nick Vassileff, city attorney, were named by Macraas Tuesday to check records of the Board of Review and assessor.

City assessment totals were \$21,349,535 for 1958, \$21,388,252 for 1959 and \$20,783,281 for 1960, the latter figure being used in determining the tax rate for 1961 collections. The change went unnoticed because the 1959 total showed only a slight increase over the previous year's total, it was noted.

It was decided Tuesday night to also seek an answer for losses in other assessment categories. The officials reported valuation decreases on personal property, land and railroad property, and on the portion of Nameoki

The club has accepted 16 beginner applications since signing its third annual invitation March 25, and has plans to send members to Southern Illinois University on a once-a-week basis to teach the art to physical education majors at the university.

Shells Top Warriors In Dual Meet

Roxana high school's track and field squad bested Granite City in a dual meet yesterday afternoon on the Shell layout, 76-42, but the Warriors of Coach Ross Rosenthal showed signs of being tougher in several events than they had been given credit for before the season opened.

Granite City grabbed three firsts in the 14 events, where times and distances were average despite cold, gusting winds.

Warrior winners were Terry Tittsworth in the shot, John Groenke in the pole vault and Jim Ritchie in the mile run. Groenke cleared a surprising 11 feet to win the vault, and did not move his warmup togs until the final jump.

Hughes Wins 4 Events

The Shells had a one-man gang in Fred Hughes, however. Hughes placed first in the 100-yard dash, half-mile run, 220-yard dash and broad jump. Roxana's Ron Thompson also was a double winner, finishing ahead of everybody in both hurdling events.

Harry Thruau of GCJHS and Ron Thomas of Roxana tied for first in the high jump at a height of 5-6 1/2, and Thruau picked up points by finishing second in both the high and low hurdles, in the 440; Elton Poole, second in the pole vault; Tittsworth, second in the discus; Bob Summers, second in the 220; and Frank Knight, third in the 880.

The events, winners and winning times and distances: 100 — Hughes (R), 10.2; 220 — Hughes (R), 23.7; 440 — Keller (R), 56.0; 880 — Hughes (R), 2:14; mile — Ritchie (GC), 5:08.5; 880 relay — Roxana, 1:36.1; mile relay — Roxana, 3:48.0; 120 high hurdles — Thompson (R), 21.8; high jump — Thruau (GC) and Thomas (R), 5-6 1/2; broad jump — Hughes (R), 29-2 1/2; pole vault — Groenke (GC), 11-0; shot put — Thruau (GC), 46.5; discus — McLane (R), 122.7.

Kahoks Run Past Trojan Track Squad

Even without their highly rated weight man, Bogie Redmon, Collinsville proved too formidable a track and field opponent for Madison high school in Collinsville Tuesday, running off with a fractured foot, was not too sorely missed as the Kahoks swept to victory in 13 of the 14 scheduled events.

Only MHS' winner was Walt Cooper, who turned the 100 in 11.1 seconds. Madison missed the services of Ken Griggs, who was withdrawn from the squad. Griggs, in previous appearances this season, turned in better times than he did the winners of the 100, 220 and 440 Tuesday.

Cooper picked up a second-place finish in the 220. Norm Stavar and Rich Hamilton finished 2-3 in the high hurdles and George Russell was second in the 880-yard run to account for the Trojans' other points.

The events, winners and winning times and distances: 100 — Cooper (M), 11.0; 220 — Palmer (C), 25.0; 440 — Brown (C), 56.0; 880 — Willie (C), 2:09.0; 880 relay — Collinsville, 1:41.6; mile relay — Collinsville, 3:45.6; mile run — Berry (C), 5:04.0.

120 high hurdles — Mottin (C), 17.2; 180 high hurdles — Mottin (C), 25.1; high jump — Evans (C), 5-8; broad jump — Scheller (C), 19-1; shot-put — Herr (C), 43-6 1/2; discus — Herr (C), 159-5.

Baseball, Net Openers For Prather, Coolidge

Coolidge and Prather junior high schools hook up in a baseball-tennis doubleheader this afternoon as both schools inaugurate the season in both sports.

The schools' tennis squads will meet in a match at the CJHS courts, beginning at 3:45 p.m., while the baseball teams clash at the same time on Diamond No. 2 in Wilson Park.

UNION MEMBER RESENTS TEACHERS' UNION EFFORTS TO DOMINATE SCHOOL BOARD

To the Forum:

Now that we have elected our officials for another four years, the parades are over, the signs are coming down and our doors are not littered with propaganda, I would like to remind everyone that there is still another election to be held.

This election will be held next Saturday and two men will be elected to serve as members of the Board of Education for the next three years. Very little attention is given these elections by the citizens at large and a very small vote is cast. The men elected will be responsible for supervising the education of my children and spending over sixty percent of all the taxes I pay on my real and personal property. To me this makes them as important as any official I am asked to vote for.

As a member of organized labor, I have been asked to vote for two men who are opposing the incumbent members, Howard Kaseberg and Glenn Abernethy. In checking into this request I find that Messrs. Kaseberg and Abernethy are being opposed mainly by members of the Teachers Federation.

I feel that this attempt by the Teachers Federation to dominate the Board of Education is unfair to the other unions in our area.

After all, the money to pay their salaries comes out of our pockets. If they are asked to elect people who are concerned only with the teachers' problems, who is going to look out for my interests? A great many of the teachers are only part time residents of our city and do not own property, therefore, are not aware of the problem the rest of us have in paying our greatly increased property taxes.

I feel that the Board of Education, while Kaseberg and Abernethy have been members, has been very fair with our teachers. In talking to our teachers from other towns around us, I have been told that our teachers have the highest pay scale in this area. As a union man I always feel that I am being treated fairly if I am paid equal to the prevailing area wage for my particular occupation.

I urge every citizen, and particularly all union members, to go to the polls Saturday to vote for Howard Kaseberg and Glenn Abernethy, the men who are interested in providing the best possible education for our children and fair treatment for the taxpayers as well as teachers.

A UNION MEMBER WHO IS ALSO A PARENT AND TAXPAYER.

DIFFERENCES OF OPINIONS ON AID TO SCHOOLS

Some authorities say federal aid to private schools is unconstitutional; others say such aid is constitutional. Dr. Sutherland, a Protestant authority, a professor of constitutional law at Harvard University indicates federal aid is constitutional. Legislation such as Title IV, scholarship grants, tax benefits, GI Bill of Rights, lunch programs etc. are examples of constitutional aid to private and religious schools.

The Gallup poll, Citizens for Educational Freedom and other sources indicate some Catholics and Protestants feel it undesirable to aid federal or state schools; other Protestants and Catholics feel constitutional aid must be given if it benefits America.

If such aid is given, it should be based upon the intellectual betterment of citizens, not upon enterprising private education versus state controlled public education.

To displace people by Christian teachings or to displace God by lack of Christian teachings, in everyday life poses no dilemma; however, to give a small amount of aid supporting education and Christian teachings, or to give a large amount of aid supporting Christians taught in public schools may become a dilemma.

Some additional food for thought concerning America's greatness: A newspaper, owned by a Protestant, publishes an editorial (written by a Catholic) at no expense, and then allows additional space for rebuttal to

Veeder said the meeting will last about 1½ hours and he will be assisted by C. of C. President Paul Lichtenberger.

Water Valve Break Causes Damage At Mill

A break in a valve on a 10-inch water main inside the Granite City Steel Co. plant inundated 20th street for a short time Tuesday evening, flooding several motors in the plant shut down production for a half-hour in several departments and delaying construction of the new annealing line building along 20th street.

The valve break was a result of the razing project along 20th street where a large warehouse is being torn down to make room for the new annealing line building. The valve had been braced against the foundation of the old building, and the foundation had been torn away several days earlier.

Continuing Duties For Regional Census Office

Contrary to popular belief, the U. S. Census Bureau does not fold its tents and fade away between the big 10-year population and housing counts, according to Director Taylor W. Golden of the Bureau's permanent regional field office for this area. The region includes parts of Illinois, Arkansas, Indiana, Kentucky, Missouri, and Tennessee.

Golden points out that nine major censuses will be conducted between now and the next decennial census in 1970. The first of these major censuses will be the 1962 Census of Governments which is conducted every five years.

Then comes the five-year Censuses of Business, Manufactures and Mineral Industries. These will be taken in 1964 and 1969, covering business operations in 1963 and 1968, respectively. The Census of Agriculture will be conducted in 1964 and 1969.

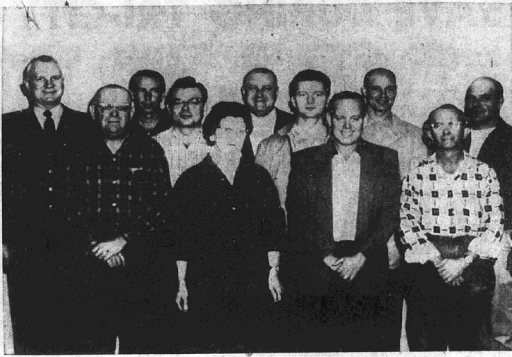

In addition to these major censuses, the bureau carries out a wide variety of current surveys on a monthly, quarterly and annual basis. Topics covered in the current surveys include employment and unemployment, population characteristics, housing, retail and wholesale trade, manufacturing and related subjects. Purpose of the current surveys is to supplement and keep up to date the detailed information collected in the major censuses.

The Current Population Survey, conducted 12 times a year, is an interim Census Bureau activity which touches the lives of a number of local families. Each month a census taker, working under the direction of the Regional Field Office, visits households to obtain information on employment and unemployment. Information obtained in this area is combined with that collected in 332 other areas of the country to provide national estimates. Information on migration, income, school enrollment, population survey in addition to the facts on employment and unemployment.

Approximately 35,000 households throughout the country are included each month in the Current Population Survey. These households are selected at random under the Census Bureau's scientific sampling program to provide a representative cross-section of all classes of the population, and all types of areas of the country — large cities, small towns and rural areas.

His wife, Marian, died in 1956. Two nieces residing in Freeport, Ill., are his only direct survivors.

His remains were brought from St. Paul to a Madison funeral home, and graveside services were held at 10 a.m. today at Sunset Hill Cemetery. Arrangements are given in the obituary column.

1961, the quarterly count is 431. At these rates, the year would end with 1724 mishaps, 720 injuries and 16 deaths, compared to the actual 1960 yearly totals of 1731, 805 and 16. The 1731 and 805 tabulations are records, while the worst one-year fatality mark of 44 was reached in 1954.

After the first three months of last year, the statistics were 440, 187 and three. From this, it appears that 1961 is heading in the direction of being almost as severe as 1960 in accident damage and casualties.

Monthly averages so far this year are 143 crashes, 60 injuries in February and 158 in January and one death.

There aren't any more tough cuts!

Top Round on a rotisserie!

Rump Steaks oven-broiled or charcoal grilled! Swift's new Poten* Tendered Beef ends toughness in every cut!

Swift has perfected a tendering process that makes top round so tender you can cook it on the rotisserie! Now all cuts cook quicker and easier than ever before! And every tender bite brings you high-quality meat protein! (You can still make delicious, braised pot roasts and stews. Martha Logan says prepare as usual, but take 15 to 30 minutes less total cooking time.)

Look for the label "ProTender Beef" on both Swift's Premium and Swift's Select brands.

HOW PROCESS WORKS

Swift's exclusive new tendered Process is a method of tenderizing beef from within, developed and patented by Swift & Company, with the approval of the U.S. Department of Agriculture. Natural enzymes in meat are supplemented by vegetable protein distributed throughout the meat tissue. (This is not a dipped or surface method.)

This new tendering method has no effect on the meat until cooked in oven, grill, or broiler. Then it releases amazing new tenderness never possible until now.

GCHS To Vie In State Dramatics Contest Finals

The state's most talented high school actors, debaters and public speakers will go to the University of Illinois tomorrow and Saturday to compete in finals of the Illinois state high school speech contest. Eighty-six high schools will be represented in one or more events, including Granite City high school, which has 12 drama casts and 27 debate teams have won their way to the finals.

In addition, 108 pupils — the two top contenders in each field from six sectional contests — will compete in the following individual events: extemporaneous speaking, serious reading, prose reading, radio speaking, original monologue, original oration, serious reading, comedy reading and after-dinner speaking.

A 1961 innovation will be the holding of two awards assemblies Saturday instead of one. This year, a dramat award assembly will be held at 1 p.m. and a debate-individual events assembly at 1 p.m. in 112 Gregory Hall.

At these assemblies, winners will be announced and the top cast or team taking first place in each event will repeat his prize performance.

The state speech contest finals are conducted for the Illinois High School Association through the University of Illinois Division of University Extension.

Representing GCHS will be Robert Butler, after-dinner speaker; a four-student debate team composed of Butler, Gary Grammer, Casey Fredericks and Richard Kerch; and eight members of the cast of a one-act play, "The Skin of Our Teeth," Cheryl Glazik, Larry Diak, Carolyn McEwan, Kathleen Cross, Lee Goldberry, Bob Hirsch and Richard Copeland.

State Capitol NEWS

July 20 is the closing date for entries in the Illinois State Fair's Textile and Culinary Departments. Revised premium lists may be obtained by writing Mrs. Wayne Archer, superintendent of the Women's Department, Illinois State Fair, Springfield. Fair dates are Aug. 11 through Aug. 20.

Amateur art will no longer be a stepchild at the Illinois State Fair. It has been separated from the Textile Department and placed under the supervision of a professional artist, Mrs. Anita Stanley, Nokomis. Plans call for making the exhibit one of the finest of its kind anywhere and for promoting cultural arts throughout the state. Paintings exhibited at the 1961 fair must first have been shown at a county fair or a county art show and judged on the county level. Premiums have been increased. Information and applications may be obtained from Mrs. Anita Stanley, Amateur Art, Illinois State Fair, Springfield.

Illinois traffic deaths declined four percent in 1960, totaling 1,725. Traffic accidents increased to 236,976, up 19,486 from 1959.

A regional office of Industrial Planning and Development for Southern Illinois is to be opened in Herrin within two weeks. Gov. Otto Kerner announced last week. The office fulfills a pledge made the Southern Illinois Industrial Conference in Carbondale in February.

Directing the office will be Frank A. Kirk, assistant professor in Southern Illinois University's Department of Community Development, and an authority in coordinating state and federal programs with local and regional development efforts. "As far as I know Illinois is the first state in the country to establish a state office for economic development at a grass roots level," Gov. Kerner said. "This move is particularly timely in view of the passage by Congress of the Area Redevelopment Bill. The Southern Illinois office will work closely with federal officials in administering the program established by that bill as well as with the state's Division of Industrial Planning and Development."

Kirk has assisted in planning and development activities in most of the Southern Illinois communities, and has been consultant in regional planning for the Kaskaskia Valley Association, Rend Lake Conservancy District and the Wabash Valley Association. He was previously a community planner for the Chicago Community Conservation board, having charge of the Near West Side Urban Renewal Project.

A study of marketing practices in Southern Illinois commercial fruits and vegetables will be launched immediately by the U. S. and Illinois Departments of Agriculture. Heading the program from the USDA is Robert E. Heffernan, chief of the transportation and facilities research division. Gov. Otto Kerner said the study will be made by a committee composed of Heffernan and representatives of the Illinois Agriculture Department's Division of Markets, the Division of Industrial Planning and Development, and Southern Illinois University.

The governor explained the study will be made in successive stages, beginning with the economic basis for establishing centralized marketing facilities for fruits and vegetables in the Anna-Carbondale area and the area's potential capacity for self-support and self-liquidation. If findings are affirmative, the study will then proceed to actual planning stages, covering the type of facilities, their management and operation and means of financing the project.

Illinois' annual farm census of livestock and farm property will get underway April 1. The census covers 1600 townships.

Farm Column

By TRUMAN W. MAY

Madison County Farm Adviser

Several farmers have recently asked whether they should apply soil insecticides to their corn fields every year.

As a general recommendation, the answer is "yes." H. B. Petty, Illinois extension entomologist, cites one test field that received a soil insecticide treatment one year. But the next year only half of the field was treated. The result: the half that was treated in both years had a

five percent greater crop stand. As another example, Petty cites one field that received a double dosage of soil insecticide one year, but none the next. What happened? Cutworms caused such severe damage that the owner replanted the entire field.

Petty points out that there are two soil insects, the northern corn rootworm and the wireworm, that could be effectively controlled by making applications every two or three years. But there are a dozen other species of destructive insects, such as the corn root aphid and cutworms, that require annual applications to control them.

Petty recommends using aldrin

or heptachlor as soil insecticides. If they are broadcast, use 1½ pounds per acre. If they are applied in the row at planting time, use only 1 pound per acre.

Taking care of the maintenance chores on your tractor will increase its efficiency and life. The important items are spark plugs, battery, air cleaner, oil, crankcase breather and valve clearance. To keep your tractor performing efficiently, inspect it systematically and keep a record of the maintenance chores you perform.

Once the freeze danger is past, drain and flush your tractor radiator and fill it with soft water plus a rust inhibitor. Wat-

er has more heat-removing capacity than commercial antifreezes.

Remove, check and repack your tractor front-wheel bearings. After a long, moist winter, and particularly if the tractor has been used in muddy fields, the bearings need fresh protection.

Home gardeners should plant tomato varieties that are resistant to fusarium wilt, a common vegetable disease.

Two varieties resistant to this disease are KC-146 and Manadale.

When plants are transplanted, move them either to the garden or to individual containers, us-

ing clay, peat or plastic pots. No. 2 or No. 300 tin cans with the tops and bottoms removed also work well. Moving the plant to a container gives it time to develop a stronger root system before it's moved to the garden.

Dig an adequate-sized hole in the garden and drop in plant, container and all. The collars of the containers will protect the young plants from cutworms. Make sure the plants have plenty of water the first few days after transplanting.

Probably the most common topic of conversation among farmers right now is the new feed grain program. Every

farmer and landowner should get complete information on this important matter, particularly how it applies to your own farm. Items explaining the program are being published in the papers. Plan to attend one of these meetings to hear the program discussed.

The new phone number of the farm adviser's office is Edwardsville 656-7200. In long distance dialing, it is 618-656-7200.

The summary of feeder cattle records for the feeding year 1953-54 shows that profit margins for all good-to-choice long-fed steer programs were the lowest since 1953. Profit margins for these programs were favorable from 1954 through 1958 but

have been unfavorable for the past two years. Only most efficient feeders were able to cover all costs last year.

It is not too late to prepare a budget of income and expenses for your farm for 1961. Good farm records can make planning and budgeting more accurate and easier. This is a must for farm operators to establish a good basis for credit. More farmers are using and needing fuel will pick up.

A demonstration of sprayer adjustment and calibration will be held at the Farm Bureau building the morning of April 13, at 10 a. m. This is a different date than first announced.

Wendell Bowers of the department of agricultural engineering, University of Illinois will show how to adjust sprayers and granular applicators for the best results. All owners and operators of spraying equipment are invited.

Never use an old gasoline storage tank to store diesel fuel. It may look clean, but it often contains fine rust and dirt particles that the heavier diesel fuel will pick up.

THE SQUEEZE Many a family is pressed by high prices, but only a few are taken to the cleaners.

Mr. Jack Thomas of Dallas, above, deals in oil... once every 4,000 miles! He owns a '61 Ford with new Full-Flow oil filtering that cleans all the oil so thoroughly, frequent changes are unnecessary. Deals in grease, too... also in a small way, Ford's new sealed-in lubrication lets him go 30,000 miles between chassis lubrications. Never deals in wax; Ford's Diamond Lustre Finish doesn't need it. Same for brake adjust-

Accident Rate Up In GC For 1st Quarter

Granite City's accident rate, while dropping slightly in March, showed an increase for the first quarter of the year with totals of 281 accidents with 104 injuries as compared to 275 with 66 injuries during the same period of 1960.

During March, there were 83 accidents with 42 injuries, while in February, the statistics were 85 with 28 injuries. The 53 accidents last month was "six under the police prediction of 89," and the officers attribute the drop in accidents to the increase in number of traffic arrests — up from the 46 in February to 110 last month.

There was not a single one of the 31 days last month on which at least one traffic accident was not reported. The top number for any one day was five, and that number was recorded on Saturday, March 4; Sunday, March 5; Saturday, March 25; Tuesday, March 28.

Cemetery Restoration Work To Get Underway

Axes, rakes, shovels and wheelbarrows will get into play when members of the Senior Youth Fellowship of St. John United Church of Christ undertake a restoration project Saturday on what is believed to be the oldest cemetery in the Quad-Cities area.

Under the supervision of Mr. and Mrs. Thon Kolesa, advisors for the 35-member group, the project is expected to be completed by nightfall.

Trees, weeds and thick brush will be removed, Kolesa said, in markers installed. Kolesa said in preparation for a Memorial Day service. Fallen grave stones will be placed upright.

The cemetery, just north of the A. O. Smith Corp. plant and along an unimproved road, is said to be more than 100 years old and some grave stones bear names of persons who died in the early 1800s.

The names will be listed by the group and further information will be sought in an attempt to learn the identity of pioneers and early settlers.

Meanwhile, the group is seeking historical data on the burial grounds from local residents who may have "news clippings, historical papers or any records that may exist," according to Kolesa.

It is believed the cemetery was purchased in 1832 by the Odd Fellows organization, which said to be more than 100 years old. But no mention was given in a centennial pamphlet of the purchase, although a history of the group was contained in the booklet.

10 Electors Set \$171,650 Budget for GC Township

A small group of 10 electors met at 2 p. m. Tuesday in the city council room to set the new budget for Granite City Township at \$171,650 for the 1961-62 fiscal year which started March 1.

Election day activities were blamed for the slim gathering, with all but three of the electors being city-township officers or employees.

In addition to approving the \$171,650 budget and setting a \$37,750 tax levy, the electors (qualified residents of the township) also increased the assessor's pay from the present \$800 a year to \$7200 (\$600 a month); re-employed George J. Moran as town attorney at the same salary of \$1200 a year (\$100 a month); and voted to keep the supervisor's pay at \$3900 a year (\$325 a month).

The meeting was opened by Town Clerk A. L. Stevens, and William L. Beatty, city attorney, was elected as moderator. During the reading of minutes for last year's annual town board meeting, it was noted that 13 electors were present.

A financial report, submitted by Supervisor Leonard Oram, showed an income of \$55,463 for town fund purposes and expenditures of \$49,664, leaving a balance of \$5801 on March 1. General assistance (relief) income totaled \$229,712 during the 1960-61 fiscal year, while disbursements amounted to \$46,155, leaving a March 1 balance of \$183,557.

No Relief Tax Levy

Because of the large relief fund balance, no tax levy will

\$74,673 Venice Township Levy, Drop Of \$5427

Venice township residents approved a \$74,673 tax levy for the 1960-62 fiscal year and voted to adopt the proposed \$90,825 budget and appropriation ordinance during the annual town meeting Tuesday at the Venice city hall.

Participation in the Illinois Municipal Retirement Fund was approved, salaries of township officials were set, reappointment of Edmund C. Cook as township attorney was voted and annual reports of the supervisor and highway commissioner were accepted. Salaries of several township officials were boosted.

The levy, which includes \$72,628 for general assistance and \$1845 to provide for the IMRF contribution, is down \$5427 from the 1960 levy of \$80,100, all of which was for general assistance.

Quality For State Aid

Amount of the levy was slightly above the 0.10% of the assessed valuation in the township, which totals \$69,253,301. This is the minimum to qualify for state aid.

The IMRF contribution is to be financed in part by \$1475 an estimated fund receipts to be obtained from sale of tax anticipation warrants.

Estimated receipts for the general assistance fund were given as \$104,120. Listed were a deficit of \$22,171; \$45,000 to be secured from anticipation warrants on the 1962 levy; \$35,349 from the state; and \$25,942 in taxes, representing a \$72,442 tax levy extension less \$46,500 anticipation warrants obtained during 1960-61. A \$2725 cash balance was shown.

No Town Fund Levy

No levy was made for the town fund, which showed a balance of \$31,903 at the end of the 1960-61 fiscal year on March 27. The budget was passed unchanged from its original proposal, but is down \$22,475 from the 1960-61 total. A \$25,000 food decrease in the relief fund was the major factor in the reduction.

The new budget includes \$34,860 for the town fund, up \$2059; \$154,120 for the general assistance fund, down \$27,890; and the IMRF contribution.

The IMRF provision is a replacement for social security tax payments, excluded from the new budget.

Pay increases were voted for the supervisor of general assistance, from \$3600 to \$4800; town clerk, from \$1200 to \$1800; and the town attorney, \$1800 to \$2400. The three town auditors will receive \$15 each per meeting. The supervisor of assistance also will receive \$600 as supervisor of the town fund.

The highway commissioner's salary was set at \$2000.

be needed for that purpose in 1961, the second consecutive year. It is anticipated that at the end of the current fiscal year next March 1, there will be balances of \$3850 in the town fund and \$49,100 in the relief fund.

Prior to the annual town meeting, a public meeting on the new budget was held in the city council room, attended by about seven persons. The budget, which had been posted at the city hall for a month, was presented, but no changes were proposed.

Wood River Scores Early In 9-2 Rout Of Warriors

Wood River batters cracked out five hits in the first inning against Granite City high school's varsity baseball squad Tuesday, took a 4-0 lead and made it hold up as they tripped the Warriors in a Southwestern conference game at Wilson Park, 9-2.

The Oilers greeted starter Joe Holder like a long lost cousin, pounding the lefthander for a triple, double and three singles in the opening inning. Holder also walked two before he was replaced by Larry Diak with four other markers across the plate.

Right-hander Jim Blackledge went all the way on the mound for Wood River, limiting Granite City to four hits in a game which was called after six innings due to darkness.

The Warriors defense committed seven errors in playing what Coach Joe Fedora called "the worst game I can remember as a coach." Grant Takonajian set down Wood River in order in the sixth frame as the Warriors' third hurler.

The Redmen very nearly got back into the ballgame in the second. Larry Corey drew a walk and Steve Schardan's double placed runners at second and third with no one out, but Blackledge turned a low liner into a double play, trapping Corey off third, and Ken Cook's follow-up triple produced only one run.

Granite City tallied its second marker in the sixth when Bob Heflick reached base on a three-base error and Schardan drove him home with a single. Don Brumley's junior "catch" showed its heels to Wood River in a game played at the same time on an adjoining diamond.

Tryouts for the 1961 season of the Nameoki Little League will be conducted Saturday at the Little League diamond, Pontoon and Johnson roads, beginning at 10 a.m. Ron Homyer, player agent, said today.

If necessary, the tryouts will be continued on the following Saturday morning at the same hour for boys unable to be present this Saturday, Homyer added.

Playing age limits in the league are from eight to 12 years of age. Boys who reside within an area bounded on the north and east by State Route 67 to the railroad tracks crossing Pontoon road, and on the south and west by Nameoki and Johnson roads, and who meet the age requirements are eligible to attend the tryouts.

The Little League plans to continue its major and minor division play during the coming season, with all games to be played on the league diamond.

In previous years, major league games have been scheduled on the Little League diamond and minor league contests at the Nameoki school grounds. The season is to begin late in May.

Rotary Club Hears Two Talks On Pro Football Squad

The "inside story" of participation on a professional football team was explained to Granite City Rotarians at their luncheon meeting Tuesday by two representatives of the St. Louis football Cardinals.

Jack Rockwell, team trainer, reviewed the conditioning program used to put the players in prime physical condition for the season. The other speaker, Kenneth Panfil, an offensive tackle on the squad, told of the experiences and problems of players seeking varsity positions.

Jack Fieg represented the club's public relations staff at the meeting, and Malcolm Thompson served as program chairman.

Members of the Granite City high school basketball team and Coach Andy Sullivan were guests at the meeting, along with two university athletic representatives.

IN AMERICA'S BIGGEST, TOUGHEST 1961 ECONOMY CONTEST...

Which man drove Rambler?

In the most realistic test of all-around gasoline economy ever staged—the NASCAR sanctioned 1961 Pure Oil Economy Trials at Daytona—Rambler won three trophies, held by driver Les Viland in the photo above.

No other make won more than one award... most won none. Unlike other runs that put a premium on feather-footed driving, the Pure Oil Economy Trials closely parallel your own everyday driving experience.

Every U.S.-built production car is eligible. None are arbitrarily barred, as in some runs. In 1961, 145 cars representing all 5 U.S. makers competed.

Rambler American Custom with over-drive beat them all to win the cherished Overall Winner Trophy and captured the Class 6 trophy in competition with Falcon, Corvair, Lark and Tempest 4. In fact, it took the first 6 places and 8 of the first 10.

And Ambassador V-8 by Rambler won its Class, swept the first 8 places and 9 of the first 10 spots.

Council Approves Annexation of Glenview No. 10

Granite City council members zipped through one of the quick meetings on record Monday night — the eve of the city election.

The session got off to a late start at 8:12 p.m. with only two aldermen absent, and by 8:45 the council room was cleared.

During the brief session, council members approved the annexation and plat of the 10th addition to Glenview subdivision, approved a no-parking zone on Niedringhaus avenue, approved a tavern bond and authorized preparation of an ordinance for two new stop sign locations as well as approving a bill list and half-month salaries.

The annexation ordinance was approved on third reading over the protests of Alderman Frank Nemeth, who said he had heard the subdivision planned to install asphalt streets instead of concrete.

Concrete Streets

Alderman Charles Meyer, chairman of the Ordinance Committee, told him the subdivision control ordinance calls for concrete streets in all subdivisions and that asphalt streets could not be constructed unless the ordinance is changed.

"That would take separate council action," Meyer added.

Meyer told council members that the subdivision has complied with all council requests and is ready to begin work on houses in the subdivision. "We should not delay him any longer, or he may resort to mandamus suit, which I don't believe is necessary," Meyer added.

Nemeth persisted that he had been told the council's Board of Public Improvement had agreed to permit asphalt streets in the new area. Meyer replied that he was a member of the board and knew of no such agreement.

In the vote for approving the ordinance, Nemeth opposed the passage.

No-Parking Zone

Another ordinance adopted Monday night established a no-parking zone along the north side of Niedringhaus avenue from the Walcott Railroad tracks east for a distance of 100 feet.

Alderman Casmer Skubish called for an ordinance to be prepared to place stop signs on Jordan and Sheridan avenues at the Kate street intersections.

A \$2000 liquor bond was approved for Arthur E. Kelley to take over the operation of Joe & Naz tavern at Niedringhaus avenue and Walnut street.

In other action, the council approved payment of three weeks salary to the family of James O. Smith, city sanitation department worker who died last Saturday. Nemeth, chairman of the Sanitation committee, said Smith was entitled to three weeks vacation.

Aldermen absent Monday night were Walter Nann and Robert Gaughan.

Venice Board To Get School Supply Requests

Requisitions for all school supplies for the 1961-62 school year in the Venice school district will be available for consideration by members of the Venice school board during its April 17 meeting. Supt. John O. Pier advised board members Monday night.

Bids and costs then will be sought on the items.

March bills approved for payment by the board Monday included \$11,449 in the educational fund, \$253 in the transportation fund, \$1008 in the building fund, \$912 in the Venice school lunch program and \$698 in the Lincoln school lunch program, a total of \$14,350.

Pier reported pupil attendance at Venice schools during March averaged 89.7%.

The board authorized the superintendent to arrange for judges for the annual school

district election, which will be held Saturday. Salaries for election judges were set at \$15. The board set April 17, as the date of its reorganization meeting.

Board Association Meeting

Board members voted to attend a dinner and panel discussions at the Southwestern Illinois School Board Association's meeting at the new Edwardsville junior high school building next Wednesday.

Pier said an investigation of unusually high water consumption at the Lincoln grade school building will be investigated, and added that the cause may be several leaking water lines.

He said a recent monthly water meter reading at the school was "completely out of line" with the normal rate of consumption.

One requisition, \$37 for sheet music for the Lincoln school music department, was approved by the board. The superintendent reported that sound engineers are scheduled to complete the installation of a new public address system in the Venice school gymnasium this week.

492 Ballots In Venice Park Vote

The biennial Venice park district election, as expected, proved uneventful. Two board members were returned to office without opposition.

Mrs. Hilda Daubert, vice-president of the board, won a new

she-year term, polling 461 votes, while Thomas Bruder polled 429 for a two-year unexpired term. Bruder has been serving on the board by appointment.

Ballots cast at the single polling place, the Lee Park garage, totaled 492. Seven were ruled as spoiled.

Two Granite City School Board Members Deserve Re-Election On Their Records

Election emphasis will shift from other taxing bodies to the schools Saturday, when Quad-Cityans will choose eight board members and two township school trustees. Main interest will center on the Granite City community unit district, where six are seeking two positions on the seven-member board of education. There also is a three-way contest for township school trustee in the former Nameeoki township area.

School elections are important because school directors, who receive no compensation, are responsible for spending over 50% of all local tax monies. They also establish the policies that determine the quality and the facilities of our educational system. The offices are non-partisan and should be non-political. Ideally, board members serve the interests of students, parents, taxpayers and school employees, not just one group.

Local 743, American Federation of Teachers, has a legitimate right to endorse candidates if it sees fit. Doing so this year for the first time, it endorsed two men in opposition to the two incumbents. In taking this step, the local has become much like any other pressure group, with dedication primarily to its own self-interest. A similar trend has been noted at the state and national levels, where educational organizations have lobbyists to seek legislative action.

Back in the days when most school teachers were poorly paid, a good many of them showed high dedication to youngsters' education and welfare by remaining in the profession at personal sacrifice. Fortunately, such sacrifice is no longer required of most teachers here; today, a 22-year-old college graduate, with no experience, starts at \$27 a day. From there pay ranges upward to over \$42 a day in the top bracket, based on increased educational background and experience. There still are dedicated teachers, but no more so than dedicated newspapermen, dedicated clerks, steelworkers or people in many other occupations.

Now that the emotionalism regarding such sacrifice is no longer clouding the educational picture, schools can be operated on a factual, business like basis like any other American institution. There is a job to be done, requiring competent performance, and somebody has to pay the bill. The taxpayers pay this bill, and the teachers' union is recognized by the board as a legitimate group, representing the personal interests of its members.

With this in mind, the Press-Record believes that the teachers should not and must not dominate the school district and dictate salaries and other conditions and policies. Neither should any other special interest group, organized or unorganized, be dominant. For example, it would be improper for school directors to listen only to economy-minded taxpayers and then slash salaries.

Granite City schools have made significant forward strides during the three-year period in which Howard W. Kaseberg and Glenn C. Abernethy have been school directors. New buildings and additions have been constructed, the instruction enriched in both depth and variety, guidance strengthened, salaries increased, sound business procedures established and an atmosphere created that is conducive to bringing out the best in teachers and students. Some of the teachers know this, but many reside out-of-town and many are new to this area, being unaware of past conditions that the incumbent board members have helped to improve.

Many also may be unaware of the long hours devoted by Mr. Abernethy and Mr. Kaseberg in expanding their own knowledge and ability in order to serve effectively as school board members. Rejection on the basis of their record would be impossible if all facts were considered.

Any taxpayer—or any parent—who is interested in getting the best education for his children, and the most for his tax dollar, is obligated to vote Saturday or abdicate his financial and parental responsibilities. There is no middle ground; no compromise.

We recommend to the voters Mr. Kaseberg and Mr. Abernethy—on their record.

Great Interest By Public In Election, Future Conduct Of Local Government

Greatly increased public interest in the conduct of local government was indicated by the record turnout of voters at Tuesday's city-township election. With less opposition in other townships and the park districts and justice district, the totals were lower but still sizeable.

The heavy balloting reflects favorably on Granite Cityans, who recognized and accepted their responsibility to participate in choosing their officials. They also are to be commended for approving fluoridation of the local water supply. When their favorable vote is translated into official action by the city council, the Quad-Cities will be a major step closer to a program that reduces future tooth decay by 50%.

The many close contests suggest that the performance of Tuesday's winners during the next four years will be the subject of widespread attention and interest by the people. Their best assurance of continued victories will be a high standard in carrying out their duties.

In regard to the mayor race, as one observer said after the votes were counted, Mayor Davis won despite vigorous opposition by most Democratic committeemen and much of the Republican organization. On this basis, he will begin his fourth term with fewer political obligations than ever before; in a sense, he has put the office on a non-partisan basis and taken it "out of politics."

For two council positions and the township supervisor's post, there will be new faces and fresh approaches. Combined with the experience of the remaining city and township officials, the election winners can seek to fulfill their mandate—effective response to the community's wishes and needs during the coming years.

Education must include training in the art of living with one's fellow men.

New Auto Accessory Shows Silly Season Has Arrived

April Fool's Day almost slipped by unnoticed this year, what with preparations for the observance of Easter, and it is probably just as well. However, the "silly season" has not entirely vanished, for we note the development of an "early warning" device for installation on automobile dashboards.

The instrument is to be sold to motorists wishing to detect radar speed checks as they approach at high speed. Driving willy-nilly until alerted to the police activity, they will not have to worry about such bothersome details as the law and preservation of life and property.

Many motorists fret and fume when given tickets for traffic violations, but the gadget strikes as just about as insane as the "radar trap" warnings heard on a St. Louis radio station. Perhaps the next auto accessory will be a handy-size ground-to-air missile to cope with the helicopter-borne highway police used by some states.

Cohan And Party Elected In Nameeoki

Running without opposition, the entire slate of Nameeoki township officers on the Township Progressive Party ticket was elected in a turnout of slightly over 1000 voters on Tuesday.

Votes for each of candidates, listing the total first followed by the vote in each of the five listing the total first followed Joseph J. Cohan (incumbent), assessor, 1030, 247, 288, 217, 68 and 210.

John Karlechik Jr., town clerk, 1018, 238, 277, 206, 71 and 206.

Elbert Coats, tax collector, 1010, 240, 276, 211, 64, 219.

Town board of auditors, three to be elected—

Herbert E. Polley, 1000, 253, 277, 196, 66 and 208.
Gene C. Rottier, 893, 240, 277, 206, 65 and 205.
William G. Schweiber, 893, 246, 278, 197, 65 and 207.

\$3150 Venice Building Permits During March

Three building permits were issued in Venice during March, with the proposed construction valued at a total of \$3150, a monthly listing showed this week.

Dolph A. Cooper, 310 Broadway, plans a 18x20-foot sun porch at a cost of \$1650, while Jack Tolliver, 1250 Klein street, will construct a \$600 frame 20x20-foot carport.

Also obtaining a permit was Sam Caruso, who plans an addition and repairs to a market at 1433 Market street at a cost of \$900.

\$2,015; \$1,457 School Rates

Valuation Shift Alters Tax Rates In Madison, Venice

A clerical error in placement of the \$760,500 personal property assessment of Laclede Steel Co. has resulted in revision of the new assessed valuation and tax rates of the two school districts in Venice township.

Effect of the changes is to set the new Madison school district tax rate at \$2,015 for a Madison area rate total of \$3,704, and to place the Venice school district rate at \$1,457 for a Venice area total of \$2,924. This is a 29-cent increase in Madison and a 28-cent decrease in Venice over the rates announced March 23.

With the changes, the Madison school district rate shows an increase of five cents over that of a year ago and the Madison area rate total is up nine cents. The Venice school rate is down 28 cents from a year ago, and the Venice area rate total shows a 59-cent decrease.

The changes were made after filing of an affidavit by Assessor Joseph W. Bergthart that in making up the assessment for the year 1960—used for tax collection in 1961—he placed the \$760,500 Laclede assessment in Madison school district but should have listed it in the Venice school district.

New Assessment Totals

Effect of moving the listing back into the Venice district is a new assessed valuation total for each school district. Madison now has \$3,377,182 and Venice \$3,613,175, compared to the figures announced in March, \$3,407,682 and \$3,852,675. A year ago, the two totals were \$33,628,562 and \$39,450,659.

With the \$644,000 Madison school district levy and \$549,862 Venice school levy applied

against the revised assessments, the Madison assessment cut raised the rate and the Venice valuation increase lowered the rate from the amounts announced last month.

Miss Eulalia Hotz, Madison county clerk, gives the following breakdown of the \$2,015 Madison school district rate: educational fund, \$1.50 (\$1,3208 a year ago); building, 12.62 cents (12.49); bonds and interest, 32.78 (46.5); retirement fund, 1.3 (3.43); transportation, 2 (same); total, \$2,015 (\$1,965).

A similar breakdown of the \$1,457 Venice school tax rate follows: educational, \$1.04 (\$1,1022); building, 14.72 (11.42); retirement, 1.83 (1.8); working cash fund, 2.63 (2.66); working cash bond interest, 2.21 (2.24); and interest, 17.3 (17.82); transportation, 2 (same); total, \$1,457 (\$1,485).

Computations Completed

Miss Hotz has announced that with the certification of valuations from St. Clair county for the city of Collinsville, Collinsville school district, St. Clair fire district and Collinsville fire district, her tax department has computed all rates for Madison county.

The East Side Levee and Sanitary district rate, which is computed by the county clerk of St. Clair county, is the only rate not yet received. If it is different than last year, the rate totals of \$3,646, \$3,704, \$2,924 and \$3,212 computed for Granite City, Madison, Venice and Namecki township will be changed.

Work is under way on Alton, Wood River and Edwardsville tax books, with the local area books to be delayed until the levee district rate is known.

Historical Societies Meet At Bethel Church

Historical Bethel Church near Collinsville, a station on the "underground railway" which was traveled by refugee slaves in the mid-1800's, will be the scene of a joint meeting of the Madison County and St. Clair County historical societies at 8:30 p. m. Sunday, April 16.

The joint meeting is being held to commemorate the 100th anniversary of the outbreak of the Civil War. Two great-granddaughters of the church's founder, Rev. James Lemen of Virginia, will take part in the commemorative program.

Mrs. Clara Zercher, Collinsville, will describe the role of the 121-year-old church in the seceding and transportation of seceded slaves, and Miss Perry Lemen will conduct visitors through the church and display the hiding places under the church floor where slaves were secluded during the day.

Louis F. Lumaghi II, president of the Lumaghi Coal Co. of St. Louis, will deliver the principal address at the meeting "Madison County's First Industry." Mr. Lumaghi will describe coal mining operations in Madison county.

The church is located south of Collinsville, just inside St. Clair county. It may be reached by driving south from Collinsville on Route 159, turning left (east) at the Hollywood Heights intersection and following the blacktop road to the church, a large white frame building with a green roof.
